-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Applicant's election with traverse of Group I, claims 1-3, in the reply filed on 6/2/09 is acknowledged. The traversal is on the ground(s) that new claims 37 and 38 now require all the CFP-10 listed in claim 1 and therefore the Groups should remain together. This is found persuasive for new claim 39 which requires solely the pool of peptides and, as relayed to Applicant in a telephone interview on 8/11/09, for a future kit claim reciting this pool of peptides. However, the methods recited in claim 40-56 are substantially different methods and require numerous different reagents and comprise method steps which are not usable together.

The requirement is still deemed proper and is therefore made FINAL. Claims 37, 38 and 39 will be presently examined. Claims 40-56 are withdrawn from consideration as being drawn to a non-elected invention.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 37-39 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 39 is rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential steps, such omission amounting to a gap between the steps. See MPEP § 2172.01. The omitted steps are: the method does not recite a

detection step or a correlation step. The method is incomplete as written as it merely recites mixing the blood sample with the peptide pool but does not recite how one diagnoses, detects or distinguishes between the different states of tuberculosis. Appropriate correction is required.

Claim 37 is vague and indefinite due to the wording in the last two lines of the claim. The claim lacks antecedent basis for "CFP peptides" in the third line. It is suggested that the wording in the last two lines be changed to "wherein said peptide composition comprises a pool of CFP-10 peptides which consists of SEQ ID NO: 2, SEQ ID NO: 4, SEQ ID NO: 6, and SEQ ID NO: 8."

Status of Claims

4. Claims 37-39 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

No prior art was found on the instant claims. A telephone call was placed to Applicant's representative, Susan Michaud, on 8/11/09 suggesting allowable claim language. The inventors were not available to respond within the given timeframe, but will contact the Examiner in the near future.
